

Acute upper gastrointestinal bleeding: management

NICE clinical guideline 141

Contents

Introduction

Patient-centred care

_____	_____
_____	_____
_____	_____
_____	_____

Key priorities for implementation

Risk assessment

- -
 -
- and

Timing of endoscopy

-
-
-

Management of non-variceal bleeding

-
- -
 -
 -
-

Management of variceal bleeding

-
-

Control of bleeding and prevention of re-bleeding in patients on NSAIDs, aspirin or clopidogrel

-
-

1 Guidance

1.1 Risk assessment

- and
-

1.2 Resuscitation and initial management

1.3 Timing of endoscopy

1.4 Management of non-variceal bleeding

Endoscopic treatment

- -
 -
-

Proton pump inhibitors

Treatment after first or failed endoscopic treatment

1.5 Management of variceal bleeding

[Redacted text block]

Oesophageal varices

Gastric varices

N

N

1.6 Control of bleeding and prevention of re-bleeding in patients on NSAIDs, aspirin or clopidogrel

1.7 Primary prophylaxis for acutely ill patients in critical care

1.8 Information and support for patients and carers

-
-
-
-

2 Notes on the scope of the guidance

The guideline covers:

-

-

-

-

-

-

-

-

-

-

-

-

-

How this guideline was developed

3 Implementation

4 Other versions of this guideline

4.1 Full guideline

4.2 NICE pathway

4.3 Information for the public

6 Updating the guideline
